To

The Chief Minister,
Madras.

File

Sir,

My brother went to Ichanthuruthi, a locality in
Chervathur Village of Kasaragod Taluk and he is found dead
with serious injuries. Though the matter had been reported
to the Police and there was some investigation, the matter
appears to have been hushed up as stated under the following
paragraphs.

There is ample evidence that it is a clear murder.
So many eye-witnesses have deposed about the incident. As
soon as my brother informed me about the incident I went
and asked to open the door of the house wherefrom he died.
The corpse was hidden in a Pathayam. It was only
the door was closed. But it was not opened. / The corpse
the next day night that
was thrown into the river nearby. There were cuts on the
dead body. There was bruise on the head. The organ was
completely cut off. The Police even though had sent the
body for Postmortem, they did not further investigation
in the matter. The Doctor's version of the Postmortem that
there are not cuts or bruises on the body is absolutely
false. After the higher authorities were informed the
Circle Inspector of Police came to the spot and enquired
in the matter. The eye-witnesses had deposed before him also.
From Chiruvandan's house blood stained picture was got. The
Circle Inspector himself had seen the planks of the Pathayam
were blood stained. On the wall cowdung had been smeared to
hide the blood stain. The Circle Inspector had also got
a list of accounts from that ^{house} ~~house~~ showing that amounts had
been paid to the Police at Chendora and also to the Doctor
as a bribe for ^{hushing} ~~hushing~~ up the incident. When Kottan, the
nephew of Chiruvandan was examined, he said that the accounts
~~list of accounts~~ was written by Kottan and that the

accounts ^{related} to the expenses incurred were examined at Trivandrum. Immediately Thiruvanda's wife Madhavi, Kottan, Kattan and Ambaly Master were taken to Madras making it appear to the Public that they were going to be remanded. But they were let off the next day. On 22-8-1955 it was represented that the dead body was again going to be examined by the Assistant Surgeon at Madras. But nothing happened. The Assistant surgeon came in contact with the doctor of the local Fund Hospital in Madras and so it is very likely that the Assistant surgeon was influenced. If the dead body is properly examined it will be seen that the bones on the head and neck were broken. It is therefore necessary that the D.L.O. may be asked to examine the dead body. The broken bones may be sent for expert examination. Witnesses may be examined again and charges may be charged. Proper action may be taken against the I.L. doctor at Kankaragudi and after due enquiry punishment must be meted out to him. All steps may be taken to bring to book the culprits who have done this cold blooded murder. I hope that atleast the Government will not hush up the matter.

M

Yours faithfully,

PILICODE
